- Homepage hero with random quote and clear Start Request CTA.
- Book Travel & Services section with six service request tabs.
- Full landing pages for Letter Service and TM30 Service.
- Visa Guides / Blog system with categories, search, and Start Request CTAs.

- WordPress admin sections for Inquiries, FAQs, Destinations, Reviews, Hero Slides, Popup Messages, and Visa Guides.
- Security layer with anti-spam, login throttling, headers, and basic WordPress hardening.

Service list

- Flight Ticket
- Hotel Rent
- Easy Pass Services
- Easy Extension
- Letter Service (Myanmar only)
- TM30 Service (Bangkok, Chiang Mai, Mae Sot; no passport upload on website)

Project and repo files included

- WordPress theme source folder: easy-visa-myanmar/
- Installable release ZIP: releases/easy-visa-myanmar-wordpress-theme-v59.zip
- README.md for GitHub repo overview
- PROJECT_RECAP.md for full project summary
- GITHUB_REPO_SETUP.md and UPLOAD_TO_GITHUB.md for repo upload steps
- MINDDRAW_EXPLAIN.md plus easy-visa-v59-mindmap.mmd and easy-visa-v59-minddraw.drawio
- SECURITY.md and SECURITY_GUIDE.md for launch hardening notes
- theme-preview-screenshot.png and screenshot.png as the main preview visuals

Recommended production steps

- Use HTTPS and Cloudflare or hosting WAF/DDoS protection.
- Set up SMTP so inquiry emails do not go to spam.
- Add real customer reviews, FAQs, destination details, and hero photos.
- Test the six service forms, Thank You page, mobile layout, and admin inquiry workflow.
- Keep credentials private and do not upload passwords or secret keys to GitHub.

Package summary

This v59 handoff synchronizes the WordPress theme, GitHub-ready package, PDF recap, project recap, minddraw files, and developer information into one final delivery set.
